Project Title	Travel Mate
<p>Description of Project:</p> <p>Travel Mate is a mobile application used to assist the user in travelling and exploring the wonder around them. It provides comprehensive list of Hotels, Hospitals, Restaurants, Attractions and Information about the place. The application also provide the user a feature through which they could mark the place in their favorites list. The app also provides expense note feature. So, next time it would be easy for the user to find the destination as it would be listed in the home page. A list of attractions will also be provided. Here attractions mean the places around the destination which could attract the user to visit them. This application provides the feedback section. Photos details and directions of the attractions will be given.</p>	
Front end and Backend Tools	Android, Java
